

## DOMAIN: COMMUNICATIONS

### TECHNOLOGY SERVICES:

TEST AS A SERVICE

### Network and Service Performance

Live Network Testing

### CLIENT:

European Operator

### CHALLENGE:

Customer launched VoLTE and experienced service disruption soon after launch. Experienced difficulty in identifying root cause and solving the problem.

### SOLUTION:

ABot, coupled with our field engineering services, to perform developed test cases on live network including VoLTE client's simulation to verify EPC/ IMS Infrastructure and LTE client with VoLTE and MBB data to verify QoS Impact

### OUTCOME:

Customer went live with confidence that network will cater up to 3M subs and deliver as expected QoS, and QoE SLA, KPI and KQI
